## Journey stages

| Stage                     | Requests |
|---------------------------|----------|
| Needs a plan              | 0        |
| Awaiting decision         | 0        |
| Preparing to leave        | 0        |
| On the road               | 0        |
| Returned · finish due     | 1        |
| Journey completed         | 0        |
| Cancelled / not fulfilled | 0        |

## Scheduled movement by hour

Scheduled departures and expected returns grouped by local hour. Includes unallocated demand; excludes cancelled and unfulfilled requests. These are not actual movement times.

| Hour  | Scheduled departures | Expected returns |
|-------|----------------------|------------------|
| 06:00 | 0                    | 0                |
| 07:00 | 1                    | 0                |
| 08:00 | 0                    | 1                |
| 09:00 | 0                    | 0                |
| 10:00 | 0                    | 0                |
| 11:00 | 0                    | 0                |
| 12:00 | 0                    | 0                |

| Hour  | Scheduled departures | Expected returns |
|-------|----------------------|------------------|
| 13:00 | 0                    | 0                |
| 14:00 | 0                    | 0                |
| 15:00 | 0                    | 0                |
| 16:00 | 0                    | 0                |
| 17:00 | 0                    | 0                |
| 18:00 | 0                    | 0                |

Needs attention

| Record / passenger      | Action                   | Next person |
|-------------------------|--------------------------|-------------|
| TR-1047 · Charlie Brown | Finish passenger journey | Sara Wilson |

Source context

Counts use permitted records in the selected scope. Journey completion and vehicle custody remain separate. Example observation time 2026-09-28T10:35. No historical trend or on-time performance is inferred.
